

Grid Allocations beginning AY16/17

Grid allocations are based on the total number of courses* to be offered by BA/BS programs (excluding BSVA). This is the total number of courses to be distributed across the grid, according to % allocations. **Courses exempted from grid distribution allocations (do not include in the total, minimums, or maximums): Any co-requisite lab or discussion sections.*

The maximum number of courses allowed to be scheduled in each block is 10% of the whole. This number is derived from the total number of courses (defined above):

Courses that meet in more than one block count toward each block's allocation. Any course, all or part of which, takes place during these times, is considered part of the 10%.

Allocation Grid Blocks (see [Academic Grid](#) for approved meeting times)
