10MIN	Break	
10:00PM-10:30PM	Continue Scene Work	
10:30PM	End of Day	
General Notes		
Happy First Day of Tech & Friday the 13th! We were able to be in the Performance Studio from 6:00PM-8:00PM working with Sound, Props & Scenic. However, due to Lighting having some technical difficulties, we decided to move back into the rehearsal space with actors, run crew & the Sound team to work on a few scenes. If all goes right, we will be back in the theatre tomorrow. We appreciate everyone's patience.		
Props Notes		
~ Can we fix & seal the paint problem with the flyswatter? ~Can you please pull more laundry & towel packets to add to the big SL Main Pile? ~Jack is concerned we are losing both the magazines & performers when they lay on the bed. That being said, could the solution be to make the mattress higher? Perhaps add something underneath? ~Jack would like to add more magazines on the bed, they do not need to have Alicia's face on them.		
Sound Notes		
~ Thank you for coming in and working on cues with us.		
Lighting Notes		
Nothing for today. Thank you.		
Costume Notes		
Nothing for today. Thank you.		
Scenic Notes		
~Since Edward is falling on the SL Main Pile, we need to make that pile much longer & wider.		
Technical Notes		
Nothing for today. Thank you.
