General

Today, Claudia Swidzinski let Stage Management know that SaCha's visit to urgent care ended with the doctor telling her that she was not to perform. Stage Management informed costumes and changes were made to adjust for Claudia to fill in. At call time, Stage Management talked to Rachel Dickstein about how to proceed, and since no one had spoken directly to SaCha, Shelby Marquardt was again dispatched to her apartment. After a brief interaction, SaCha let us know that she didn't feel comfortable with the faculty and stage management "attacking" her about her injury and saying she couldn't do it, so we let her rest and continued on with Claudia filling in for #25. Claudia did a fantastic job, filling in the track smoothly. She was welcomed by cast, crew, and audience with a lot of applause and support. We are grateful for her and Kylie Madden for acting fast on this last minute change today and look forward to our final two shows and closing night tomorrow.
