2:00PM	Meal Break		
3:00PM	Resume Tech		
4:20PM	Break		
4:30PM	Resume Tech		
5:25PM	Break		
5:30PM	Resume Tech		
6:00PM	End of Day & Prod. Meeting		

General Notes:

Today was our last day in tech. We were able to work with all of our props and consumables and run through every transition multiple times to tighten them up. We had to cut the winch for the chandelier, however with a pulley system being put in place by technical tomorrow, we're hoping to be able to use the chandelier by our first dress rehearsal.

Technical:

1. An email was sent to ask for a flyman for the chandelier.

Lighting:

No notes from us tonight, thank you.

Sound

No notes from us tonight, thank you.

Costumes

1. Will the towels used to dry off Beth-Ann be costumes or props? If they are costumes, we will need them tomorrow at dress.
2. Can we have additional clothes for the clothesline?

Scenic:

No notes from us tonight, thank you.

Props:

1. Could we have an additional coffee mug?
2. Can we have additional e-cigs?
3. Could we have a large map (preferably of Port au Prince) printed out for Beth-Ann to use in the transition from scene 6 to 7?
4. Will the towels used to dry off Beth-Ann be props or costumes? If they are props, we will need four or five dropped off before dress tomorrow.
