General Notes

Today, we continued working through scenes in show order, there was also discussion regarding the costume pieces the actors want to bring in, as well as, props we want to have in the show. We will be on our feet tomorrow, during our first in person rehearsal, and will be putting up alot of the scenes we worked today.

Technical Direction

We are looking to have a few props and furniture pieces for the show, and would love for you to inquire about that to let us know if that's possible. I can give you the specific list once we find out.

Lighting

Roz would like there to be diagonal pools of light (catwalk) for Aaron and Marlynn to walk in during their scene "Photo Session."
