

Express yourself.

Abstract Expressionism is a kind of art that shows feelings. Artists used colors, shapes, lines, and symbols to share emotions like joy, anger, or excitement. When Adolph Gottlieb created this painting, called *Evil Omen*, he used bold colors and strong shapes. What feeling do you think this painting shows?

Now it's your turn to create your own abstract expressionist artwork!

What feeling do you want to show in your art? What colors, lines, and shapes will you use? How do those colors make you feel?
