

COST SHEET FOR OUTBOUND SEMESTER EXCHANGE STUDENTS

Purchase students engaged in approved exchange programs pay tuition, mandatory fees* and health insurance to Purchase College (see below). All other charges - housing accommodations, dining, miscellaneous expenses including specific course materials and fees – are the responsibility of the student and must be paid either to their host institution and a private landlord off-campus (if students choose that option). The costs are estimates and may be subject to increase.

The financial aid students receive during the academic year will apply toward the semester term abroad. Please contact [Student Financial Services](#) with any questions regarding financial aid award and disbursement.

These estimates do not include the cost of travel to and from or within the country of study, nor any expenses incurred when classes are not in session, for example, during semester break, etc.
