

Every Voice Counts

SUNY Sexual Violence Prevention (SVP) Survey

Administration period: March 28– April 17, 2023.

Purchase College and SUNY are once again conducting the SUNY Sexual Violence Prevention (SVP) Survey. We are required by NYS law to do so to students, faculty and staff at least every two years. SUNY system Administration has taken over the administration of the survey so the invitation to participate will be sent from a SUNY email address.

It is important to us that we create a living, learning and working environment that is safe for all community members. This survey is intended to gather information to ensure that we understand the full scope of sexual and interpersonal violence issues on campus as well as our effectiveness in communicating resources and services. Please take 15 minutes to complete the survey when you receive the email invitation next week.

If you have questions regarding the survey, [Frequently Asked Questions](#) are posted on the Collaboration Center. Or, contact [Barbara Moore](#), Director of Institutional Research, Planning and Assessment.

How do I take the survey?

An email invitation to participate in the survey will be sent from SUNY System Administration (survey@suny.edu) on Monday, March 6th.

Who will take this survey?

The Campus Climate Survey is designed for all students, faculty, and staff. There are two separate surveys - one for students and one for faculty and staff. Students 18 and older are eligible to take this survey. The survey is voluntary, and respondents will not be identified.

Why Should You Take the Time to Fill Out the Survey?

Your feedback is very important in helping us understand your Purchase experience.

- Ensures administration understands the full scope of sexual & interpersonal violence issues on campus as well as strengths and areas for improvement in communicating about resources and services.
- Provides an opportunity for collaborative work between students, faculty/staff and administration on this critical issue.
- Ensures administration understands your perspective (results will be viewed by senior administrators but only in aggregate).
- Helps campus community contribute to determining future steps and programming.
