

Experience

Purchase Repertory Theatre**Technical Director****Spring 2023***Twelfth Night*

Responsible for all technical aspects of the production which included a large working water fountain and a large sub grid. Bidded all scenery, developed a technical production calendar, obtained quotes & orders for all bought materials, managed a technical team and oversaw all technical documents & planning including draftings, building of scenery, and load-ins/outs.

Purchase Repertory Theatre**Production Carpenter****Fall 2022***Cyrano De Bergerac***Spring 2022***Reps: Barbecue & Waiting for Godot*

In charge of all aspects of load in/out of shows. Created prep paperwork including load in/out schedules, pull lists, hardware lists, and daily load in/out checklists. Scheduled & ran load in/out meetings and planned schedule with other departments. Ran load in/out and delegated tasks to crews.

Reps: Created a changeover schedule and was the lead of changeover crew in switching between the two shows each night.

Purchase Repertory Theatre**Lead Technical Designer****Fall 2022***Fefu And Her Friends*

In charge of the technical design of all scenery which included tall slanted walls and a french door wall. Delegated units to the drafting team and provided methods of construction. Approved drawings to be sent to the technical director and technical advisor. Expedited and reviewed drawings with the lead shop carpenter for fabrication.

Purchase Repertory Theatre**Production Rigger****Fall 2021***Life is A Dream*

Created a rigging plot for hanging all soft goods, lighting electrics, and scenery. Rigged scenery included steel platforms and walls. Managed grid crew for rigging during load in/out. Technical designed all metal scenery and assisted in fabrication.

Purchase Repertory Theatre**Lead Welder****Spring 2021***Dialogues of the Carmelites*

Fabricated steel frames of a large wall to fly. Fabricated a large guillotine unit which included automation. Built/refurbished all other units for the show and was assistant fly rail operator during the show.

PRG Scenic Technologies, NY**Shadowing Project Managers****January 2023**

Shadowed several project managers during their process of managing shows at PRG. Learned how project managers delegate & track time, money, and labor for each show and interact with all other departments. Sat in on kick off meetings, status meetings, department meetings, and a designer shop visit.

ABT at The MET Opera**Technical Production Assistant****June-July 2022**

Worked alongside ABT technical director in putting up four full length ballets at the MET in five weeks. Oversaw load-ins, tech rehearsals, changeovers, load-outs, trucking, and updated & verified daily production paperwork.

Cigar Box Studios: Newburgh, NY Project Management/Technical Design Intern**August 2022**

Worked closely with the production manager and management team in executing scenery & projects in the shop. Involved in production meetings, obtained quotes, ordered materials, checked on progress & outcomes of projects, created technical drawings, and was involved in meetings with the designer throughout the process.

Carpentry & Metal Shop Intern**Summer 2021**

Worked with skilled carpenters in fabricating and welding scenery including a 50' tall steel frame for an outdoor christmas tree. Drafted & developed scenery using CNC router and created technical drawings for shop fabrication.

Rose Brand, NJ**Shop Over hire****January 2022**

Worked with skilled carpenters/installers in building, assembling, and operating a very large automated track for Lincoln Center.
